Work Experience

Lead Product & UI/UX Designer

VNC – Virtual Network Consult AG

2017 - 2022, Remote

- Formalized a team within Central Design to deliver a distributed-yet-centralized Design System.
- Created wireframes and user stories for new features, visual design of features, low-fi mockups, high-fi mockups, brand style guides, and a visual glossary.
- Managed client demands across multiple projects and engaged with clients on an individual basis to ensure project goals were achieved.
- Collaborated with lead developers to implement new features and design changes, such as integration of new features on the user interface, as well as development of new navigation buttons, icons, and layout structure.
- Designed UI/UX for online retail sites, including layout, color scheme, and font selection to visually convey product message and brand identity.

UI/UX and Graphic Designer, Founder

ShineDesign Studio

2020 - Present

- The UX design and development team successfully redesigned the UI/UX experience for mobile customers, working across multiple channels to ensure a consistent and seamless experience.
- Interfaced with executives and product managers to create new features, developing prototypes and wireframes to present to users for user acceptance testing.
- Served as a UI/UX Designer for a leading digital creative agency, creating wireframes and visual mockups in collaboration with creative directors, art directors, and account managers to produce engaging web-based user experiences.
